2. All penalties are Final

3. SEP = Supplemental Environmental Project

Narrative Summary:

Entergy, Monroe, LA: On June 15, 1999, an Administrative Order of Consent was filed. The agreement was signed in the public interest to avoid the risk created by protracted litigation and potential electric capacity shortfalls during the summer. The company also agreed to perform numerous activities in response to citizen complaints.

St. Charles Parish, Louisiana Receives National Pollutant discharge Elimination System (NPDES) Administrative Order - Administrative Order Docket No. VI-99-0048 was issued to the Luling Pond facility on May 13, 1999. This Order cited deficiencies which were found during an inspection as well as bypasses which have been reported to the EPA. This action is intended to obtain compliance with this facility's NPDES permits and Clean Water Act. This facility is to remain operational even after the

Parish's regionalization plan is complete. Portions of the Parish's eight other wastewater treatment facilities will be decommissioned, and a new eastbank and westbank facility will be constructed along the Mississippi River at an estimated cost of \$41 million. Compliance is scheduled to be achieved by August 1, 2000.
